

## Announcing QI Macros Pareto Chart Improvements

**DENVER**, July 1, 2010 – The QI Macros SPC Software for Excel announces improvements to its Pareto Chart including:

- Multiple and comparative Pareto Charts
- Automatic color coding of up to 3 bars for Six Sigma analysis of Pareto's Rule.

[The QI Macros Lean Six Sigma SPC Software](#) works in Excel 97-2007 and is available for immediate download. The QI Macros have been simplifying process improvement and [Lean Six Sigma](#) for tens of thousands of customers since 1996. Thousands of hospitals use the QI Macros to improve clinical outcomes and patient flow. Thousands of businesses ranging from automotive suppliers to state and Federal government use the QI Macros to help reduce costs and boost productivity and profitability.

The QI Macros are the “Swiss Army Knife” of tools for companies embracing Lean Six Sigma which combines the speed and quality of the Toyota Production System (TPS). The QI Macros are an addin for Microsoft Excel that does the math and draws the graphs required for SPC—Statistical Process Control. It also includes fill-in-the-blank templates for more exotic Six Sigma tools like Design of Experiments (DOE) and Quality Function Deployment (QFD)—two key elements of Design for Six Sigma.

The QI Macros SPC software contains 30+ charts and 80+ fill-in-the-blank templates for simplifying the complexities of Lean Six Sigma. And at only \$229 +S&H, they are the least expensive, most robust solution available on the market.

Readers can download a free, 30-day evaluation copy and user guide at [www.qimacros.com/free-resources](http://www.qimacros.com/free-resources).

They can also sign up for our free Lean Six Sigma lessons on line and webinars at: <http://www.qimacros.com/training/qi-macros-webinar/>
