## KnowWare International Awarded BBB A+ Rating

**Denver, CO** – KnowWare International has been awarded [A+ rating by the Better Business Bureau](#). The BBB is a nonprofit organization that exists so consumers and businesses have an unbiased resource to guide them on issues of trust in the marketplace. Businesses that meet the high standards set by the BBB are invited to apply for accreditation.

KnowWare International was founded with the goal of providing Lean Six Sigma software, books, training, and consulting to companies needing to improve their own products and services. KnowWare prides itself in providing affordable and reliable products and services, and in providing quality customer service.

“Being a BBB Accredited Business with an A+ rating reflects the trust and reliability of our company. It is another way we can show that treating our clients fairly and ethically is one of our company’s goals,” said founder and CEO Jay Arthur.

If a business has been accredited by the BBB, it also means the BBB has determined that the business has pledged to make a good faith effort to resolve any consumer complaints.

For the past 15 years, KnowWare International has provided Lean Six Sigma software and consulting solutions to all types of organizations; including government agencies, large corporations, small companies, hospital and medical facilities, and education institutions. In addition, KnowWare International publishes books and provides consulting and training to companies who want to improve quality and increase profits.
