QI Macros SPC Software for Excel Exhibiting at Quality Expo in Fort Worth, March 14-15, 2012

KnowWare International Inc., developers of the QI Macros Lean Six Sigma SPC Software for Excel, will showcase the product at the Quality Expo in Fort Worth, Texas on March 14-15, 2012. Statistical software is a key ingredient in improving and maintaining product quality in manufacturing by reducing delay, defects, and deviations as well as monitoring other key performance indicators (KPI).

[The QI Macros SPC Software](#) works in Excel 2000-2011 and is available for immediate download. The QI Macros have been simplifying process improvement and [Lean Six Sigma](#) for tens of thousands of customers since 1996. Thousands of manufacturers both small and large use the QI Macros to improve product quality. Thousands of businesses ranging from automotive suppliers to state and Federal government use the QI Macros to help reduce costs and boost productivity and profitability.

The QI Macros are the “Swiss Army Knife” of tools for companies embracing Lean Six Sigma which combines the speed and quality of the Toyota Production System (TPS). The QI Macros are an addin for Microsoft Excel that does the math and draws the graphs required for SPC—Statistical Process Control. It also includes fill-in-the-blank templates for more exotic Six Sigma tools like Design of Experiments (DOE) and Quality Function Deployment (QFD)—two key elements of Design for Six Sigma.

The QI Macros SPC Software contains 30+ charts and over 90+ fill-in-the-blank templates for simplifying the complexities of Lean Six Sigma. And at only \$199 +S&H, they are the least expensive, most robust solution available on the market.

Readers can download a free, 30-day evaluation copy and user guide at <http://www.qimacros.com/freestuff.html>. They can also sign up for our free Lean Six Sigma Lessons on line and webinars.
